25. 【答案】A They know little about why the paintings were created.

注：选词填空、长篇匹配、仔细阅读的逐题解析公开来源未收录，仅提供答案键。

七、写作题目与范文（三套卷合辑）

题目一：科技对学习是否重要（卷一）

范文： We can see a teacher and a student in the cartoon above. When the teacher asks the student to answer a question written on the blackboard, the student wants to seek tech support rather than work it out by himself... As one of youngsters, I think as long as we can take advantages of hi-tech reasonably, our learning process will be highly beneficial. At the same time, keep it in mind that independent thinking comes first, while tech support just offers assistance.

题目二：学历歧视（卷二）

范文： From the cartoon given above, we can observe that there is a recruiter talking with an interviewee... the interviewer says, "Sorry, kid... Your resume looks good, but you only have a Master's degree... All the other applicants are Ph.D.!" ... it is not advisable that employers judge a person only by his/her educational backgrounds. Let alone "Degree Discrimination".

题目三：学习没有捷径（卷三）

范文： It is a common phenomenon that a large number of students are pursuing success with a wrong belief that there exists a shortcut to learning... The picture makes us college students aware of the great significance of true skill and genuine knowledge. Only by making efforts to learn in and after class can we gain solid and real ability and competence.

八、翻译参考译文（三套卷合辑）

翻译一：中国画（卷一）

中文原文：反应在艺术和文学中的乡村生活理想是中国文明的重要特征。这在很大程度上归功于道家对自然的感情。传统中国画有两个最受青睐的主题，一是家庭生活的各种幸福场景.....另一个则是乡村生活的种种乐趣.....这两个主题可以分别代表儒家和道家的生活理想。

参考译文： The ideal rural lifestyle reflected in the art and literature is a great characteristic in Chinese civilization. It is largely attributed to the Taoism affection to nature. There are two most preferred topics in traditional Chinese paintings. One kind depicts various happy scenes of family life in which the elderly play chess and drink tea, young men farm and harvest in the field, women weave or sew clothes and kids play in the outside. The other depicts the recreations of rural life. In these paintings, fishermen fish on the lake, famers hew or collect herbs on the hills and scholars compose poems or paintings under pine trees. These two themes respectively represent the ideal life of Confucianism and Taoism.

翻译二：教育公平（卷二）

中文原文：中国将努力确保到2015年就业者接受过平均13.3年的教育。如果这一目标得以实现，今后大部分进入劳动力市场的人都需获得大学文凭。在未来几年，中国将着力增加职业学院的招生人数.....教育部还决定改善欠发达地区学生的营养，并为外来务工人员的子女提供在城市接受教育的同等机会。

参考译文： China will endeavor to ensure every employee to have average 13.3 years of education. If the goal is achieved, a majority of people entering the labor market will be having Bachelor's degree. In the next few years, China will increase the number of people in vocational college. Except focusing on the higher education, the government will find a breakthrough point to ensure the justice of education. China is trying to optimize education resources and, accordingly, the countryside as well as the less developed areas will receive more support. In addition, the education ministry decides to improve the nutrition of students in less developed areas and provides equal opportunities for the children of workers from out of town to receive education in the city.

翻译三：经济（卷三）

中文原文：自从1978年启动改革以来，中国已从计划经济转为以市场为基础的经济，经历了经济和社会的快速发展。平均10%的GDP增长已使五亿多人脱贫。联合国的"千年发展目标"在中国均已达到或即将达到.....中国现在7%的经济年增长目标表明政府是在重视生活质量而不是增长速度。

参考译文： Since the reform in 1978, with the rapid development of economy and society, Chinese economy has transferred into market economy from command economy. The average 10% growth of GDP has lifted more than 500 million people out of poverty. The Millennium Goal of the U.N. has been fully or partially achieved throughout China. At present, the 12th Five-year Plan in China emphasizes the development of service industry and the solution of imbalance of environment and society. The government has set goals to reduce pollution, enhance energy efficiency, improve educational opportunities and medical insurance and expand social security. The 7% growth annual goal demonstrates that the government is concentrating on the quality of life rather than the speed of growth.
