四、翻译参考译文（三套变体）

Variant 1: 黄土高原 (Loess Plateau)

原文：黄土高原是中国第三大高原，面积约60万平方公里，平均海拔1000-2000米，绝大部分覆盖着50-80米厚的黄土，是世界上黄土分布最集中、覆盖厚度最大的区域。这是大自然创造的一个奇迹，在世界上也是绝无仅有的。黄土高原是中华民族的发祥地之一。早在5500年前，人们就已经在黄土高原上开始农耕。随着农耕业的持续发展，黄土高原人口不断增加，在秦汉时期就成为中国的政治和经济中心。如今，随着西部大开发战略的实施，黄土高原地区的经济得到了迅速发展。

参考译文： The Loess Plateau, the third largest plateau in China, covers an area of 600,000 square kilometres and rises 1,000-2,000 metres above the sea level on average. As the majority of the plateau is covered with 50-80 metre thick layer of loess, it is the most concentrated area in loess distribution in the world. Therefore, it is well recognized as a miracle created by the nature and the unique one on this planet. The Loess Plateau is one of the cradles of the Chinese nation where Chinese began farming 5,500 years ago. With the continuous development of agriculture, the population kept increasing on the plateau, which became the political and economic centre of China in the Han Dynasty. Today, with the Western Development strategy implemented, the economy of the Loess Plateau area is developing rapidly.

Variant 2: 云贵高原 (Yunnan-Guizhou Plateau)

原文：云贵高原大部分位于云南、贵州省境内，总面积约50万平方公里，平均海拔2000-4000米，是中国第四大高原。云贵高原西高东低，河流众多，形成了许多又深又陡的峡谷。峡谷中许多地方土壤肥沃，非常有利于多种农作物生长。云贵高原独特的自然环境造就了生物和文化的多样性。它是中国森林和矿产资源类型十分丰富的地区，也是古人类起源的重要地区。云贵高原是中国少数民族数量最多的地区，各民族都保留了自己丰富多彩的文化传统。

参考译文： Most of the Yunnan-Guizhou Plateau is located in Yunnan and Guizhou provinces. With a total area of about 500,000 square kilometers and an average elevation of 2,000-4,000 meters, it is the fourth largest plateau in China. Being high in the west and low in the east with numerous rivers flowing through, the plateau has thus allowed the formation of many deep and steep canyons. The fertile soil in many parts of the canyon is very conducive to the growth of many kinds of crops. The unique natural environment of the Yunnan-Guizhou Plateau has created biological and cultural diversity. It is not only an area with abundant types of forest and mineral resources in China, but also an important place witnessing the origin of ancient humans. Besides, it embraces the largest number of ethnic minorities in China, each of which has preserved its rich and diverse cultural traditions.

Variant 3: 青藏高原 (Qinghai-Tibet Plateau)

原文： 青藏高原位于中国西南部，面积约230万平方公里，平均海拔4000米以上，被称为“世界屋脊”。青藏高原自然资源丰富，风景秀丽，拥有多种珍稀野生动物。青藏高原气温很低，形成了大面积高山冰川。这里是亚洲许多著名河流的源头，是中国和东南亚的主要淡水供应源。青藏高原对全球生态系统至关重要。由于气候变化的影响，青藏高原的冰川正在加速融化。中国一直在努力保护青藏高原的生态系统，草地覆盖率不断增加，许多濒危物种得到了有效的保护。

参考译文： The Qinghai-Tibet Plateau, located in southwest China, covers an area of 2.3 million square kilometres and rises over 4,000 metres above the sea level, thus enjoying the reputation as "the world roof". The plateau boasts abundant natural resources, many rare wild animals and picturesque views. The plateau features a large area of high mountains and glaciers due to the low temperature and the origin of many well-known Asian rivers which are well recognized as the major providers of fresh water for China and southeast Asian countries. Therefore, the plateau plays a key role in the global eco-system. Owing to the impact of climate change, the glaciers here are melting more quickly. The Chinese government has been endeavouring to conserve the eco-system here, gradually increasing the fraction of green coverage and effectively protecting many endangered species.

五、写作范文（三套变体）

Variant 1: 培养大学生的团队精神 (team spirit)

Directions: ... begins with the sentence "Today increasing importance is being attached to cultivating college students' team spirit."

The Importance of Building Team Spirit

Today increasing importance is being attached to cultivating college students' team spirit. Just as the saying goes, "many hands make light job". In modern society, team spirit is undoubtedly a key component of success, which is why college students are increasingly encouraged to cultivate it.

The necessity of strengthening teamwork can be attributed to a number of factors. To begin with, by sharing information, every individual member of a team can flourish. We can learn new concepts from others with different experiences, as well as from their mistakes, which can help us avoid repeating them. Furthermore, feedback can help us learn more about ourselves. Feedback from team members can reveal hidden strengths and blind spots about our behaviors, enabling us to become better team members and individuals.

In a nutshell, increasing globalization and technological advances have resulted in a complex world where it is impossible for one person to possess all the knowledge required to resolve all the issues. In collaboration, we use our own unique skills to accomplish complex tasks at greater speeds, reach new benchmarks and expand our knowledge and skills.

Variant 2: 培养批判性思考与理性选择能力 (critical thinking)

Directions: ... begins with the sentence "In an era of information explosion, it is vitally important to develop the ability to think critically and make rational choices."
