Li Chun, a genius architect, designed and supervised its construction. The Zhaozhou Bridge features a novel structure and graceful shape. The bridge has a main arch with two minor arches on its ends to help release floodwater, reduce the total weight of the bridge and save the stone. Since its completion, the bridge has stood the tests of numerous floods and earthquakes, but its main structure remains intact and still in use today. The Zhaozhou Bridge is a pioneering undertaking in the history of world bridge construction, and an outstanding achievement in the history of the Chinese ancient civilization. Bridges with similar design did not appear in Europe until the 14th century, 700 years later than the Zhaozhou Bridge.

六、写作范文

Directions: For this part, you are allowed 30 minutes to write an essay that begins with the sentence "Nowadays more and more people take delight in offering help to the needy."

Roses Given, Fragrance in Hand

Nowadays more and more people take delight in offering help to the needy. Helping others in need is one of the traditional virtues of the Chinese nation. Thus it deserves more attention and applause.

In the first place, people who give a helping hand to others are more likely to gain a sense of accomplishment and happiness. Besides, the most remarkable significance of helping the needy is that people who have received warmth and kindness are more likely to pass on this love to others. Last but not least, this sort of exemplary behavior plays a vital role in cultivating children's awareness of caring for others, which makes a lot of sense in creating a more civilized and harmonious society.

As the old saying goes, roses given, fragrance in hand. I really believe that a brighter future is awaiting us as long as everyone is ready for giving a hand to other people at any time.
