五、翻译参考译文（三套变体）

Variant A: 贴春联 (Spring Festival couplets)

原文：贴春联是中国人欢度春节的一个重要习俗。春联由一对诗句和四字横批组成，诗句和横批用金色或黑色写在红纸上，红色代表幸运，金色代表财富。春联贴在大门左右两侧和门框上方。春联的诗句体现中国传统诗词的特点，两句诗的数字相同、内容相关。横批凸显春联的主题，更是锦上添花。春联以简洁的文字描绘生动的形象，抒发美好的愿望。当家家户户贴春联时，人们就会意识到春节已经正式拉开序幕。

参考译文：Pasting the Spring Festival couplets is an important custom for Chinese people to celebrate the Spring Festival. The Spring Festival couplet consists of two lines of poems and a horizontal scroll bearing four characters. These verses are written in gold or black on horizontal scrolls of red paper. Red is considered lucky and gold represents wealth. The Spring Festival couplets are pasted on the left and right sides of the gate and above the door frame. These verses embody the characteristics of traditional Chinese poetry. The two lines have the same number of words and are related in content. The horizontal scroll, highlighting the theme of the verses, is icing on the cake. The text of the Spring Festival couplets is organized in a concise and vivid manner, expressing a beautiful visual sense. When every household puts up Spring Festival couplets, people's footsteps would follow, and then the Spring Festival officially begins.

Variant B: 中央电视台总部大楼 (CCTV Headquarters)

原文：中央电视台总部大楼位于北京市朝阳区，总建筑面积约55万平方米。主楼由两座塔楼组成，因其独特的造型，成为这座城市的一个热门景点，每天都吸引众多游客前来参观。大楼的创新结构是中外建筑师长期合作的成果，不仅体现了环保意识，而且大大节约了建筑材料。中央电视台总部设有一条穿过大楼的专用通道，向公众展示各个工作室以及中央电视台的历史。在那里，参观者还可以看到故宫和北京其他地方的壮观景色。

参考译文： The CCTV Headquarters Building is located in Chaoyang District, Beijing, with a total construction area of 550,000 square meters. It consists of two towers. Due to its unique shape, it has become a popular scenic spot in this city, attracting many tourists every day. The new structure is the result of a long collaboration between Chinese and foreign architects, which not only reflects environmental awareness, but also greatly saves the materials needed for the building. Through this building, a specialized channel of the CCTV Headquarters shows the history of the various studios and CCTV itself to the public. Visitors can also enjoy the spectacular scenery of the Forbidden City and other places in Beijing there.

Variant C: 印章 (Seal)

原文：自古以来，印章在中国就是身份的凭证和权力的象征。印章不仅具有实用性，而且也是一种艺术形式，是一门集书法与雕刻于一体的古老艺术，经常被看作与书画并列的独立艺术品。印章从材料的选择、制作的工艺到字体的设计，都具有极其丰富的美学表现。其他国家的艺术家通常在其绘画作品上签名，而中国艺术家则往往在其书画作品上盖上印章代替签名。这样，印章也就成为作品的组成部分，是体现作品独特性的一种方式。

参考译文： Since ancient times, the seal has been a symbol of status and power. The seal, an ancient art that combines calligraphy and sculpture, is not only a practical object but also an art form. From the choice of materials, the production procedure to the design of the typeface, seals have a rich aesthetic expression. While artists from other countries usually sign their paintings, Chinese artists often prefer to use seals in place of signatures on paintings and calligraphy. In this way, the seal also becomes an integral part of the work. It is a way to show the uniqueness of the work.

六、写作范文（三套变体）

Variant A: 现实社会人际交流的快乐 (real-world social interaction)

Directions: ... begins with the sentence "Today more and more people begin to realize the pleasures and joys of real-world social interaction."

Today more and more people begin to realize the pleasures and joys of real-world social interaction. In the information era, it goes without saying that the Internet plays a key role in our daily lives. The Internet and mobile phones enabled us to contact others, search for information and provide us with online services. However, opinions vary when it comes to whether they brought us more advantages than drawbacks. First and foremost, it is natural for students to be fond of mobile phones because of the convenience they bring. However, in my opinion, real-world social interaction is incomparable to online platforms. We can't communicate directly and expressively if we abandon the way of real-world social interaction. Without the care of friends and family, people get easily downhearted and demoralized.

Variant B: 提高数字化能力 (developing digital skills)

Directions: ... begins with the sentence "Nowadays students are becoming increasingly aware of the importance of developing digital skills."

Nowadays students are becoming increasingly aware of the importance of developing digital skills. Due to the rapid development of information technology, human society is striding forward into the digital age. In the meantime, there is a growing awareness of the importance for people to cultivate digital skills. In my opinion, young people, especially today's college students, should grasp the importance of developing digital skills.

Digital skills, which can be simply defined as the ability to use and develop digital resources, will not only make us better employed in future, but also drive the country's technological and economic development. At the national level, strengthening the education and training of the whole nation's digital skills and enhancing citizens' digital literacy will help citizens explore various resources and information so as to better cope with the opportunities and challenges brought by the digital age. For individuals, in a fast-paced society, learning how to use digital skills in daily life has become a prevailing trend. Some communities even offer smartphone courses for senior citizens. Obviously, it is necessary for people to cultivate digital skills in their future life.

To conclude, the importance of digital skills cannot be overstated. It is high time that we improved the whole nation's digital skills.

Variant C: 互信与坦诚是合作的关键 (mutual trust and openness)

Directions: ... begins with the sentence "It is now widely accepted that mutual trust and openness is the key to promoting cooperation."

It is now widely accepted that mutual trust and openness is the key to promoting cooperation. In various fields, whether in business, international relations, or personal relationships, this principle holds true. Take business partnerships as an example. When two companies enter into a collaboration, if they lack mutual trust, each side may be reluctant to share crucial information or resources. They might worry about the other party taking advantage of them. However, when there is a foundation of trust and openness, both sides can freely exchange ideas, technologies, and market insights. This open communication often leads to innovative solutions and more efficient operations, ultimately benefiting both parties.

In international relations, countries that trust and are open to each other are more likely to engage in peaceful negotiations and joint projects. For instance, during global crises like the COVID-19 pandemic, nations that trusted and cooperated openly shared medical supplies and research findings, which was crucial in combating the virus.

In conclusion, mutual trust and openness are indispensable for successful cooperation. They break down barriers, foster innovation, and create a win-win situation for all involved.
